

Protect your students' quality of life
**Aon Student Accident
Protection Plan**

A quality education is an investment in a child's future, providing students with the skills, knowledge and experience to make the most of their lives.

Schools also have a duty of care to provide their students with a safe environment to learn and grow.

Why is student accident protection important?

While no one likes to think about student accidents, Aon's experience in the education sector shows that the majority of insurance claims by schools relate to injuries to students.

Our claims records show that, 97 percent of public liability claims from schools were for student injuries¹. Typical causes of serious injury include rugby scrums, diving or falling into water, falling into camp fires, striking objects while running and being hit by falling structures.

Injuries range from fractured fingers to quadriplegia, and the impact can resonate beyond the victim and their family, across the entire school community.

Accidents are unplanned but your response doesn't have to be

One way your school can ensure that your students are well looked after, if they are injured, is by investing in student accident insurance. This provides cash benefits for a range of injuries from broken bones to burns to permanent disabilities, as well as various out-of-pocket expenses related to an accident. The cost of the insurance is based on the level of benefits payable and the number of students being covered.

A small investment by your school can make a major difference to your students and their families

When considering accident insurance, you need to look beyond the immediate cost of the accident to the ongoing expenses. Claims for personal injury to students can take more than a decade to settle, with ongoing expenses for treatment, rehabilitation and day-to-day care, possibly for the rest of the child's life.

With student accident insurance, your school can respond effectively to an accident by providing monetary relief to assist parents with hospital fees and other expenses related to the accident.

From as little as \$8.50 per student, your school can look after your students' quality of life, and make a difference to the effect the accident has on everyone from the immediate family to the broader school community.

Please see the Benefits Comparison Table on page 4 for a full listing of insured events and the benefits payable under each level of cover.

Aon's Student Accident Protection Plan is available at three different levels of benefits

Gold

Gold is the base level of cover, which provides benefits for the common injuries at just \$8.50 per student.

Gold Plus

Gold Plus is an upgrade to Gold, providing increased and additional benefits for an affordable \$11.95 per student.

Platinum

Platinum is our top level of cover which provides extensive benefits for permanent disabilities, including \$1.25 million for quadriplegia/paraplegia. The cost for Platinum is \$25.50 per student.

Features of Aon's Student Accident Protection Plan

Top disability benefits where the money is needed

Aon has designed the Student Accident Protection Plan to provide major benefits where the money is needed most.

For example, the benefit payable for quadriplegia/paraplegia is \$1.25 million under the Platinum level of cover, \$1 million under Gold Plus and \$750,000 for Gold.

Cover including one term before or after enrolment

Sometimes a child participates in an activity before they are officially students of a school, such as an orientation camp. Or a year 12 student who has officially left the school may compete in a final sporting event. To provide for these situations, Aon's Student Accident Protection Plan covers students for one term at either end of their enrolment while they are participating in school activities.

When are students covered?

Students are covered only while they are engaged in school or organised sporting activities, including travel to and from such activities.

Cover is automatically provided for exchange students without the need to notify the insurer or pay an additional premium.

Aon provides major cash benefits where the money is needed most

Benefit for psychological trauma

Accidents can cause psychological trauma as well as physical injuries. Such trauma can affect both the victim and witnesses to the accident.

Aon's trauma benefit provides up to \$20,000 per student to cover the cost of trauma counselling for students².

Benefits for burns to 20 percent or more of the body

Most policies carry a burns benefit, but only for burns to at least 40 percent of the body. Aon covers burns affecting from 20 percent of the body.

Wide-ranging benefits

In addition to providing financial benefits for specific accidents, Aon's Student Accident Protection Plan provides:

- Cover for a child's tuition, for four terms, in the event of their parent or guardian's accidental death,
- Financial support for tutoring should a student be away from school for a prolonged period, and
- Clothing, confinement to bed and other out-of-pocket expenses that relate to an accident.

Up to 100 percent reimbursement of non-Medicare expenses incurred more than 12 months after the accident

Under most accident policies, non-Medicare medical expenses have to be incurred within 12 months of sustaining the injury to be covered.

In the case of children, medical practitioners often want to delay treatment, particularly surgery and dental reconstruction, until the body has developed further. Quite often the delay is in excess of 12 months, meaning that the usual policy conditions will exclude costs incurred for the delayed treatment.

1. Data based on insurance claims by Aon school clients in 2000 – 2004 inclusive. Note that data excludes claims by universities.

2. Psychological trauma benefit covers the cost of counselling for students who suffer psychological trauma as a result of witnessing or being a victim of a criminal act.

What's the difference between Gold and Gold Plus?

Gold Plus offers increased benefits across most of the insured permanent disabilities

Aon's Student Accident Protection Plan will reimburse 100 percent of non-Medicare medical expenses that occur 12 months or more after the accident (up to \$10,000 under Platinum); provided that a medical practitioner recommends the delay and the insurer is notified.

Many of our valued Gold clients have told us that they would like to increase their student cover benefits, but do not have the financial capacity to move to our top level Platinum option.

So we developed Gold Plus, an upgrade which delivers all the features of Gold, plus increased benefits across most of the insured permanent disabilities including:

- Quadriplegia/paraplegia cover increased from \$750,000 to \$1 million
- Partial loss of sight from \$65,000 to \$120,000
- Loss of hearing in both ears from \$150,000 to \$400,000

Other increased benefits include for burns to 40 percent of the entire body, from \$320,000 to \$500,000, and fee relief from \$15,000 to \$20,000.

Aon's Student Accident Protection Plan is available at three different levels of benefits

Gold

Gold is the base level of cover, which provides benefits for the common injuries at just \$8.50 per student.

Gold Plus

Gold Plus is an upgrade to Gold, providing increased and additional benefits for an affordable \$11.95 per student.

Platinum

Platinum is our top level of cover which provides extensive benefits for permanent disabilities, including \$1.25 million for quadriplegia/paraplegia. The cost for Platinum is \$25.50 per student.
